DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claim 35 is rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a class asserted utility or a well established utility.

Claim 35 is also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a class asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

Claim 35 is not directed to a statutory class of invention. A signal is not a statutory class of invention.

Claim Rejections - 35 USC § 112

2. Claims 1, 3, 4, 15-16, 18-19, 22-26, 31, 35-40, 43-49 and 51-53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, line 11, "an" should be changed to - -said- - so as to be referred to the previously recited "aggregate net exposure".

As per claim 24, line 14, "an" should be been changed to - -said" so as to be referred to the previously recited "aggregate net exposure. On line 18, "the predetermined tolerance" lacks clear antecedent basis.

As per claim 25, line 11, "an" before "aggregate net exposure" should be changed to - -said- - so as to be referred to the previously recited "aggregate net exposure" so as to avoid lack of antecedent basis deficiency.

As per claim 31, line 15, "an" should be changed to - -said- -. Also, on line 31, "a" should be deleted to avoid lack of antecedent basis deficiency.

As per claim 35, line 12, "an" should be changed to - -said- - so as to be referred to the previously recited "aggregate net exposure" recited on line 7.

As per claim 38, line 10, "an" should be changed to - -said- - so as to be referred to the previously recited "aggregate net exposure" recited on line 6.

As per claim 39, line 17, "an" should be changed to - -said- - so as to be referred to the previously recited "aggregate net exposure" recited on line 4.

As per claim 40, line 12, it is unclear as to which "aggregate exposure" is being referred to.

Claims not directly addressed are rejected based on their dependency.

Claim Objections

3. Claims 38 and 39 are objected to because of the following informalities:

As per claim 38, line 13, "managing" should be changed to - -manage- - for grammatical purpose.

As per claim 39, lines 1-2, "so as to provide" should be changed to - -for providing- - in order to avoid intended use problem and also for grammatical purpose.

Appropriate correction is required.

Allowable Subject Matter

4. Claims 1, 3-4, 15-16, 18-19, 22-26, 31, 35-40, 43, 45-49 and 51-53 are allowable over the art of record.
